

## Bonded by Chemistry. Driven by People.

We design advanced and tailor-made specialty chemicals for diverse industries across the globe.

We work side by side with our customers on a shared long journey built on trust and strong human connections.

By leveraging agility, flexibility and deep technical expertise, we optimize their processes and enable them to achieve operational excellence and sustainability goals.

We aim to be the global partner of choice for innovative chemical solutions, connecting people and industries to move the world forward.

By combining our diversified expertise with our innovation and sustainability-driven approach, we act as a flexible catalyst to help industries face today's and tomorrow's challenges.

# Our activities at a glance

What makes us unique is not only the quality of our products, but how we work. Chemistry is our tool but people are our drive: whatever the industry needs our team has or will develop the right solution. Our portfolio covers water treatment, lubricants, energy, mining, electrification, electronification, flame retardants, oleochemicals and many more applications.

## Global without distance

- Manufacturing hubs
- Sales offices
- Headquarters
